Gutter Seal™

DIRECTIONS FOR USE OF GUTTER SEAL

SURFACE PREPARATION: GUTTER SEAL will stick to and seal both metal and vinyl gutters. The areas to be repaired should be clean, dry and free from dust, oil, grease or other debris.

DIRECTIONS FOR USE: Just remove paper backing and press in place with adhesive side down. GUTTER SEAL will also stick to itself. When connecting GUTTER SEAL for larger repairs, an overlap of one inch is required. If needed, GUTTER SEAL can be easily cut with a sissors or sharp knife.

FOR BEST RESULTS: GUTTER SEAL should be applied when the temperature is 50°F or warmer.

PAINTING TO MATCH GUTTERS OTHER THAN WHITE:

GUTTER SEAL can be easily painted with either acrylic enamel, or oil base enamel paint. No special preparation is needed.

NEW GUTTER INSTALLATION: When installing new gutters, for additional protection against any future leaks, apply GUTTER SEAL inside the gutter over all seams.

Seal on the inside

Seal on the outside

Line entire gutter

WARNING:

- Use caution to avoid falls when using ladders or scaffolding.
- Store in cool, dry place until ready for use.

LIMITED WARRANTY: COFAIR warrants this product to be of merchantable quality when used and/or applied in accordance with instructions hereon. COFAIR does not warrant this product for any purpose or use other than the general purpose for which it is intended. Liability under this warranty is limited to the replacement of defective product as purchased. THIS LIMITED WARRANTY IS ISSUED IN LIEU OF ALL OTHER EXPRESSED AND IMPLIED WARRANTIES, INCLUDING THE WARRANTY OF FITNESS, AND EXPRESSLY EXCLUDES LIABILITY FOR CONSEQUENTIAL DAMAGES.
